 India Pastors and  
 Leadership Training—

CTTP: Community  
 Transformation Training  
 Partnership

Seventy pastors and  
 mission leaders attended  
 the quarterly evaluation in  
 Orissa. What a privilege  
 to get to know these men,  
 to see their heart for God

and sacrificial service to make disciples of our Lord Jesus Christ.

I had the opportunity to lead sessions on discipleship training. The main thing we talked about was *“making disciples is not just one of the things the CTTP does, it is what CTTP does”*. Pray for these leaders as they press on to know our Lord and to make disciples!

Siliguri Training:

Many of the 60 attendees  
 were tea garden pastors or  
 workers, from Hindu,  
 Buddhist or other

backgrounds. Some pastors had at least six months of Bible school preparation. Some pastors had advanced degrees. Most of the 20 women remarked this was the first time they had the opportunity to have any kind of biblical education. Only about 1% of the churches of India provide ANY kind of training for women.

The days were packed with teaching, prayer, small group discussions and interaction over meals. So many stories of suffering or persecution turned into transformed lives committed to serving God and man.

Thank you for praying! Your  
 vital partnership in these trips  
 Is so needed and appreciated.

And would you pray for us as  
 well. Pray for a return to good health -Craig was sick for his first full week  
 back. Pray for us to continue to trust our Lord to provide for us.

Our love and prayers,

*Craig and Krin*
