You will be asked to report the percentage of assignments you have completed at the training.**

Developing a Discerning Heart (DDH):

This module investigates God's design of men and women as image-bearers of God and the far-reaching effects of the Fall upon that image. It studies the life-changing impact of Christ's redemption and its effects not only on one's thirst for God but also on each person's mind, will, and emotions. Participants will look at their identity in Christ and see how God has been intricately at work in the story of their lives. Through understanding God's transforming power in their lives, participants are better equipped to come alongside others to help and encourage them in their walk with God. (Prerequisite: FRL)
